

LAKEPOWER 100

Pure hydrogen power generation system

20000h

Life

95%

Comprehensive efficiency

99.999% H_2

Hydrogen requirements

Lakepower 100

Pure hydrogen power generation system

Product introduction

- ◆ Power of LakePower series products: 5kW~2MW
- ◆ With adaptive control system, it can be adjusted automatically
- ◆ Adopting three-layer coating design technology, the conductivity and corrosion resistance are excellent
- ◆ Water, heat and electric energy are produced, and the comprehensive efficiency is as high as 95%
- ◆ Modular power station design, which can be installed, transported and operated at any time
- ◆ Conduct an overhaul and maintenance in March-June

Product data

Rated power	100kW
Outline dimension	3800×2400×2400mm
System voltage	600V
System current	0~200A
Hydrogen consumption situation	6kg/h
